WORK SUMMARY

A dedicated professional with 20 years of experience in information technology and public safety communication solutions, specializing in Motorola Astro 25 and Dimetra.

I have managed and supported IT infrastructure, data centres, and operations, gaining broad experience in base stations, servers, routers, firewalls, switches, databases, storage, LAN, WAN, wireless networks, and security.

I am skilled in various technologies, including open source and closed systems, virtualization, and security frameworks such as ISO 27001.

I hold professional certifications, including CISSP, CISA, CCNP, CWNA, CCNA Security, and MCP. Additionally, I am a registered member of the Directory of National Industry Experts (DPIN) and a certified technical trainer by the Human Resource Development Fund (HRDF).

Binariang Satellite Systems Sdn Bhd

Jun 2000 - Mar 2004

Managed systems and network infrastructure for Malaysia satellite communication system. Performed system maintenance and upgrade. Monitored system performance

EDUCATION

2007 – 2008

MASTER OF BUSINESS

ADMINISTRATION (MBA)

Universiti Utara Malaysia
(UUM), Malaysia

I hold an MBA from Universiti Utara Malaysia (UUM), where I gained comprehensive

knowledge and skills in business management, finance, marketing, and strategic planning. The program emphasized both theoretical and practical aspects of business, preparing me to effectively lead and manage in diverse and dynamic environments. UUM's MBA program is renowned for its rigorous curriculum and focus on developing critical thinking and problem-solving abilities, which have been instrumental in advancing my professional career.

1993 - 1996

COMPUTER ENGINEERING

Imperial College, London, UK

I hold a degree in Computer Engineering from Imperial College London, a prestigious institution known for its excellence in engineering and technology education. The program provided a strong foundation in computer systems, hardware design, software engineering, and advanced computing technologies. Imperial College is renowned for its cutting-edge research, world-class faculty, and innovative approach to engineering education, which has significantly contributed to my technical expertise and problem-solving skills in the field of computer engineering.

and security access controls. Provide technical training to end users on systems and network architecture.

SYSTEMS ENGINEER

Motorola (M) Sdn Bhd

Feb 1998 - May 2000

Managed IT infrastructure, networking, and computing resources, including engineering applications, servers, databases, storage, patch management, antivirus solutions, and security access controls. Developed strategic plans for IT resources and delivered successful IT projects aligned with business objectives. Developed a custom simulation systems using open source software for 3D mechanical simulation to test materials strength and radio design verification.
